Dear Gizella Hejjas, Richard Dwyer, Carson Gillis, Luis Manzo, Morag Macpherson:

RE: NPC File # 150908 [3BM-RAN1520 Municipal Water Licence Renewal]

The following works and activities have been proposed in the above-noted project proposal:

1. Renewal of water licence for waste deposit into solid waste disposal facility
2. Modification to the original project proposal:
    a. Horizon changed from 5 years to 20 years
3. Associated NPC File No: 149382; Associated NIRB File No: EX244; NWB File No: 3BM-RAN2025
4. Location: Kivalliq Region; [Rankin Inlet]

A complete description of the project proposal reviewed by the NPC can be accessed online using the link below.

The Nunavut Planning Commission (NPC) has completed its review of the above noted project proposal. The NPC previously reviewed works and activities associated with the current proposal (conformity determinations issued June 11, 2015 and July 29, 2020, which still apply). In addition, associated activities were previously screened and later exempted by the Nunavut Impact Review Board (NIRB File Nos.: unknown and EX244). It conforms to the Keewatin Regional Land Use Plan (KRLUP). The proponent has undertaken to comply with the applicable conformity requirements of Appendix C, G, and H of the KRLUP.

The project proposal does not require screening because the NPC is of the understanding that the extension of the project timeline (or horizon) does not change the general scope of the original or previously amended project activities, and the exceptions noted in Section 12.4.3 (a) and (b) of the *Nunavut Agreement* do not apply.

By way of this letter, the NPC is forwarding the project proposal to the regulatory authorities identified by the proponent. Project materials, including the applicable conformity requirements, are available at the following address: https://lupit.nunavut.ca/portal/registry/registry.aspx?appid=150908

This conformity determination applies only to the above noted project proposal as submitted. The regulatory authorities to which this letter is addressed are responsible under the *Nunavut Agreement* to implement any of the applicable conformity requirements by incorporating the requirements directly, or otherwise ensuring that they must be met, in the terms and conditions of any authorizations issued.

My office would be pleased to discuss how best to implement the applicable requirements and to review any draft authorizations that regulatory authorities wish to provide for that purpose. If you have any questions, please do not hesitate to contact me at (867) 979-3444.

Sincerely,

Solomon Amuno, PhD
