

The Nunavut Impact Review Board (NIRB) is following up regarding the email below. The NIRB is requesting if the Government of Nunavut-Community and Government Services would like to suspend or terminate the project proposal until all application materials are gathered. Please see below options set out for you.:

- Proponents may suspend the assessment under s. 143(2) of the NuPPAA until further notice. This is an option for projects where the future of the project may not be as clear at the moment. There is no penalty for suspending a project and this option allows a proponent to come back to the project at up to three-years at the time it was suspended; or
- Proponents may terminate the assessment under s. 143(5) of the *NuPPAA* and resubmit the proposal in the future. This option may be something proponents choose for a project where the future is very uncertain, or significant modifications may need to be done to a project as it is not possible to complete the project as initially designed. In this option, the project proposal will have to be resubmitted to the Nunavut Planning Commission for re-assessment.

Please provide a response in a timely manner so the NIRB can move forward with the application process. If you have any questions or concerns, please contact Keith Morrison, Manager, Impact Assessment at kmorrison@nirb.ca or call toll-free at 1-866-233-3033.
