---

Hi Dave,

We need to wait for the tele conference because all the members are not available now. But there is some progress on the Water Truck fill station. A contract has been awarded to a consultant recently. During this winter, a minor repairing works will be carried out to maintain this facility.

There is a plan for complete replacement in the next season.

Regarding the solid waste management, everything remains same.

After your meeting in Cambridge Bay in October, we may set up a meeting if you feel necessary.

Thanks

Bhabesh
