Hi Phyllis

This is 9th e-mail.

I am requesting you to transfer Water Supply O&M Part II from your ftp site. We submitted this volume along with the previous application. It is too big to send by e-mail.

Secondly during the review process by the Technical Advisor, We will be submitting Sanikiluaq Hydrology Assessment Report.

I understand SONIA is handling this file. I will be in touch with her as soon as she will receive documents from you.

Please contact me if I have missed anything or if you have any question or concern of this file.

I just remind you that initial submission was made in November 2013.

We are resubmitting the renewal application along with all the O&M Manuals to satisfy the requirements to renew the licence as soon as possible.

Please confirm once you receive all the e-mails and successfully open these documents.

Thanks and have a good day.
