NUNAVUT WATER BOARD
NUNAVUT IMALIRIYIN KATIMAYINGI

NWB File No: Unlicensed

August 10, 2000

SENT VIA FAX and REGULAR MAIL

Mr. Brian Fleming
Senior Administrative Officer
Municipality of Sanikiluaq
General Delivery
Sanikiluaq, Nunavut X0A 0W0

Subject: Environment Assessment for disposal of debris

Dear Mr. Fleming:

The Nunavut Water Board was forwarded a request, dated August 4, 2000, that was addressed to the Nunavut Impact Review Board (NIRB) by the Municipality of Sanikiluaq. The Municipality was wondering if an environmental assessment or any permits were required before disposing of scrap metal and debris from the burnt-down power plant. NIRB forwarded this request to the NWB because an environmental assessment will not be performed by them until a water licence application has been submitted.

The authorization for disposing of debris would be covered in a municipal water licence. The Municipality of Sanikiluaq is currently still unlicensed, so a water licence application needs to be completed by them as required in the Nunavut Land Claims Agreement. A completed application would include the following:

- application form with necessary maps/drawings
- supplementary questionnaire
- executive summary of the application in both English and Inuktitut
- application fee of $30 payable to the Receiver General for Canada

In 1998, the Nunavut Water Board supplied the Hamlet of Sanikiluaq with a partially-completed application form and questionnaire to simplify the application process. A completed application was never returned to the Nunavut Water Board. Should the Hamlet require a copy of this application form and questionnaire, please contact our office.

We looked forward to receiving your application. Should you have any questions or concerns, please do not hesitate to contact our office.

Sincerely,

Rita Becker, Licensing Administrator (rbecker@polarnet.ca)
