Hey Shah,

I thought you have just a couple of files. Those are a lot of files, and unfortunately I can't do it right as I am very busy with preparing for an upcoming Public Hearing.

Could you maybe send this document with a flask key by Canada Post. We will be awaiting for the O&M Plan for Solid Waste Facility before considering the application for parties review. So i believe we still have time to get it with Canada Post.

Thanks,

Shah,

As i will be traveling early next week li guess i wouldn't have enough time for downloading them especially with this speed of internet. So the flash drive would be a better idea at this circumstances. Please include also a brief Cover Letter for the Licensing.

Yes as you stated the Licensees will soon have tools to download document themselves. We are all looking for this.

Thanks,

Karen,

Yes I can do it as well. So, just now for your information that O&M manuals are available and you will get them in a flash drive, very good idea. You can download these within next 4 days as well.
