Hamlet of Taloyoak (the Licensee) is responsible to supply potable water and disposal of sewage waste, solid waste and metal waste under the current water Licence 3BM-TAL 1419, Type B, which will expire on Dec 07, 2019. The Licensee is requesting a Renewal Licence for another 10 years (Dec 08, 2019 to Dec 07, 2029). Raw water is drawn from the Canso Lake using twin intake pumps inside HDPE insulated pipes. The intake pipe is connected to a screen structure inside the lake water and the upper end is connected to filtration feed pipe at the treatment plant. Raw water treated at the treatment plant by using Cartage filtration system and chlorination before truckfill delivery. Water flow meters are included in the treatment system to address volume of water drawn but truckfill volume are
