Dear Richard,

Our screening decision still applies to your project activities. I have attached the report for your information. Please advise us of any authorizations (including the water license) that you have received for this project and also whether or not you will be applying to undertake additional activities this year.

Best regards,

Tannis Bolt

Subject: NIRB application for Canadian Arctic Holidays

Hello,

Last year we went through the NIRB process for our lodge Arctic Watch on Somerset Island. This was part of an application for a water licence. The process was timed out (I could get all the paperwork done in time) and we have to start again.

Can we get a confirmation of the process from last year or do we need to do it all again?

Regards,

Richard Weber
