## Supplemental information for Water License

### Section 8 Waste

#### Sewage:

Use of less than 1 cubic meter /day. Sewage is held in "honey buckets" then transported to pits located in a sandy area and disposed of. Bags are emptied once/day or as required.

#### Solid Waste:

Flown or barged out. We do not generate a lot of solid waste.

#### Hazardous:

N/A

#### Bulky Items / Scrap Metal:

Barged or Flown out on backhauls

#### Waste Oil:

Approx .01 cubic meters / week. Used to assist in burning off of burnable garbage

#### Greywater:

Run into natural depressions and or pits to be absorbed into ground. Use is less than 4 cubic meters / day.

#### Sludges:

N/A
