-EKK0510 2005 Spinnavut Spill Report.

Good morning Bill and nice chatting with you again. I've attached a copy of your spill plan for your reference and what we would require is a document identified as an addendum to the Spill Plan. Provide the new contact info for INAC and EC and also provide us with a site map of your lodge showing where your fuel is stored, where your spill kits are, etc. Also attached for your use is a copy of the NU spill form that should form part of your spill plan. Your annual report is not due to be submitted until March 31, 2011 so you have plenty of time to get all the information gathered up. If you could get a written authorization from the Hamlet to use their solid waste facility that would be great as our office is required to have written documentation on file for companies to use waste facilities within the Hamlets. I hope this information is helpful.

Regards,

Phyllis Beaulieu
