On July 12 th , 2019 Crown-Indigenous Relations and Northern Affairs Canada's Resource Management Officer, Christine Wilson completed a compliance inspection on Arctic Haven Lodge's water licence no. 7BL-ENN1828.			
Preliminary notes			
<ul style="list-style-type: none">— The water licence has been recently renewed on March 1st, 2018.— The Licensee is allotted four (4) cubic metres per day for recreational purposes.— The 2018 annual report is available for review on the Nunavut Water Board's FTP website.— The annual report indicated that the Arctic Haven Lodge (lodge) used on average 3.7 cubic metres of water per day in 2018.			
Observations			
<ol style="list-style-type: none">1. Freshwater is drawn on demand from Ennadai Lake and stored in tank at the lodge (photo 1).2. The lodge used approximately 4.2 cubic meters for water the for month of July (photo 2)3. Grey and black water is deposited into septic tanks. The sewage sludge is removed from the septic tanks annually and shipped out.4. The freshwater intake is equipped with a screen (photo 3).5. There is visible erosion on the trails that lead north to the floating boating dock (photo 4) and east from the Care-taker's cabin to the Lake (photo 5).6. A temporary fuel storage container is located near the floating dock to refuel boats. In accordance with PART H, item 2, fuel must be stored at a minimum distance of 31 meters from the ordinary high water mark. All fuel containers and lines must have secondary containment and moved out of the 31 meter buffer zone when not in use (photo 6).7. The pit that was used during the airstrip improvements needs to be graded flat with the surrounding topography (photo 7).
