**Re: Water License Number NWB6ENN0409, Addendum to the Spill Contingency
     Plan as requested in Part "F" of the license.**

Dear Phyllis,

Please find attached the addendum requested with our new water license for approval.
Once approved it will be added to our existing copies of the plan both at our location in
Ontario and at the lodge.

Please accept my apologies with regard to the timing of this addendum. My previous
license was not due to expire until November of this year and I did not expect the new
license to be issued until then. As such I am home from the lodge now and have complied
to the best of my ability.

Should you have any questions please call me in Ontario.

Yours truly,

Tom Young

ADDENDUM

Re: Spill Contingency Plan for Ennadai Lake Lodge operated by Cawker & Young Outfitting Ltd dated December 15, 1999.
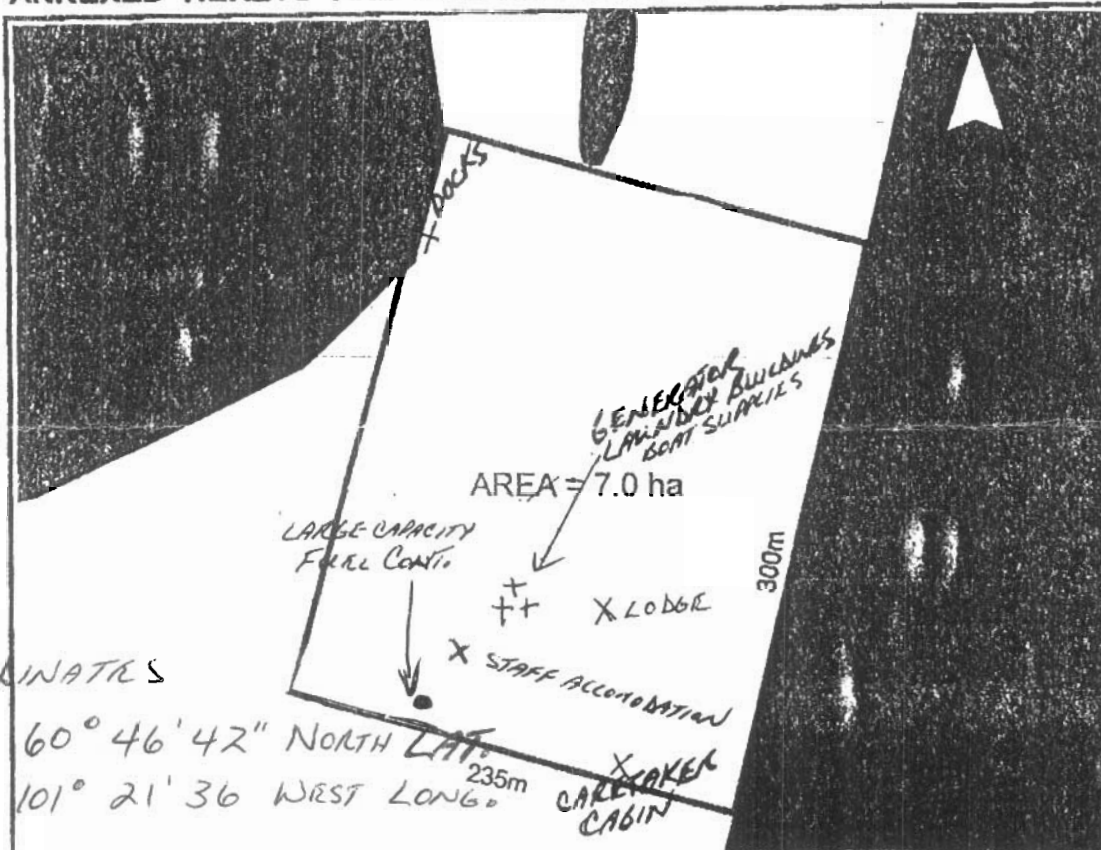

Date: October 13, 2004.

1) In addition to the existing contact list for Nunavut the Environment Canada personnel in Iqaluit must be notified at **867-975-4639**.

2) The DIAND Water Resources Inspector in Nunavut must be notified following the occurrence of any spill of chemicals, petroleum products, or waste associated with the project at **867-975-4298**.

3) See the attached drawing indicating the location of the fuel storage areas and the GPS coordinates.

4) See the attached drawing indicating the camp layout, including the location of spill response kits and additional response resources.
