Subject: 3BC-HKO---- Spill Contingency Plan Requirement

Good Morning George,

I have had the chance for a preliminary technical review of your application (3BC-HKO----) and in addition to the items mentioned in the letter from Dec 16, 2009 the NWB also requires a Spill Contingency Plan. This plan should be submitted prior to the 30 day comment period. For your information, below is a link to a Spill Contingency Plan and its addendum that should give an idea of the level of detail required in a Spill Contingency Plan.
