EXPLORATION/ REMOTE CAMP SUPPLEMENTARY QUESTIONNAIRE

Applicant: Northern Networks Ltd. Licence No: _____
(For NWB Use Only)

ADMINISTRATIVE INFORMATION

1. Environment Manager: _____ Tel: _____ Fax: _____ E-mail: _____
2. Project Manager: RYAN ST-JOHNS Tel: 867 857-2752 Fax: 867 857-2807 E-mail: eplumber.ryan@gmail.com
3. Does the applicant hold the necessary property rights? Yes
K14 Commercial lease no. KVCL102J0256
4. Is the applicant an 'operator' for another company (i.e., the holder of the property rights)? If so, please provide letter of authorization.
5. Duration of the Project

One year or less Start and completion dates: _____
 Multi Year: _____

If Multi-Year indicate proposed schedule of on site activities
Start: June Completion: September

(Seasonal - will vary
from year to year)

CAMP CLASSIFICATION

6. Type of Camp

Mobile (self-propelled)
 Temporary
 Seasonally Occupied: _____
 Permanent
 Other: _____

7. What is the design, maximum and expected average population of the camp?

Up to 20 persons. Wentverhaven tent camp with
some wood structures.

8. Provide history of the site if it has been used in the past.

The camp has been used for exploration support
since 2003.

CAMP LOCATION

9. Please describe proposed camp location in relation to biogeographical and geomorphological features, and water bodies.

The Camp is located at the Narrows between north + South Henie Lakes.

10. How was the location of the camp selected? Was the site previously used? Was assistance from the Regional Inuit Association Land Manager sought? Include maps and/or aerial photographs.

The Camp was used for many years in the 70's + 80's as a fishing lodge and exploration Camp. we obtained a lease for the property in 2003.

11. Is the camp or any aspect of the project located on:

Crown Lands Permit Number (s)/Expiry Date: _____
 Commissioners Lands Permit Number (s)/Expiry Date: _____
 Inuit Owned Lands Permit Number (s)/Expiry Date: KVCL102 T0256

12. Closest Communities (direction and distance in km):

June, 2012

Arviat, 120 miles west of Arviat

13. Has the proponent notified and consulted the nearby communities and potentially interested parties about the proposed work?

Yes, the community was consulted as part of the application for the commercial lease.

14. Will the project have impacts on traditional water use areas used by the nearby communities? Will the project have impacts on local fish and wildlife habitats?

No impacts.

PURPOSE OF THE CAMP

15. Mining (includes exploration drilling)
 Tourism (hunting, fishing, wildlife observation, adventure/expedition, etc.)
(Omit questions # 16 to 21)
 Other Exploration Support - Camp Rental.

16. Activities (check all applicable)

Preliminary site visit
 Prospecting
 Geological mapping
 Geophysical survey

- Diamond drilling
- Reverse circulation drilling
- Evaluation Drilling/Bulk Sampling (also complete separate questionnaire)
- Other: Camp Rental to exploration Companies, Tourism Comp.

17. Type of deposit (exploration focus):

- Lead Zinc
- Diamond
- Gold
- Uranium
- Other: N/A

DRILLING INFORMATION

18. Drilling Activities

- Land Based drilling N/A
- Drilling on ice

19. Describe what will be done with drill cuttings?

N/A

20. Describe what will be done with drill water?

N/A

21. List the brand names and constituents of the drill additives to be used? Includes MSDS sheets and provide confirmation that the additives are non-toxic and biodegradable.

N/A

22. Will any core testing be done on site? Describe.

N/A

SPILL CONTINGENCY PLANNING

23. The proponent is required to have a site specific Spill Contingency Plan prepared and submitted with the application. This Plan should be prepared in accordance with the *NWT Environmental Protection Act, Spill Contingency Planning and Reporting Regulations, July 22, 1998* and *A Guide to the Spill Contingency Planning and Reporting Regulations, June 2002*. Please include for review.

*Spill Contingency plan for
Camp attached.*

24. How many spill kits will be on site and where will they be located?

First Aid kits / Absorbent matting
are available in Camp.

25. Please describe the types, quantities, and method of storage of fuel and chemicals on site, and provide MSDS sheets.

N/A.

WATER SUPPLY AND TREATMENT

26. Describe the location of water sources.

The water source is located ~~about~~ 300 m
South of Camp.

27. Estimated water use (in cubic metres/day):

Domestic Use: 300 cu mtrs/day Water Source: _____
 Drilling: _____ Water Source: _____
 Other: _____ Water Source: _____

28. Describe water intake for camp operations? Is the water intake equipped with a mesh screen to prevent entrapment of fish? (see DFO 1995, Freshwater Intake End-of-Pipe Fish Screen Guideline) Describe:

Yes. we have a small honda water pump
with a screen attached to the
intake hose. water is pumped into
a 325 gal holding tank in Camp.

29. Will drinking water quality be monitored? What parameters will be analyzed and at what frequency?

We will have a filter attached to the
water line coming out of the holding tank.
All Camp water will be filtered.

30. Will drinking water be treated? How?

Water will be filtered with an in-line filter.

31. Will water be stored on site?

WASTE TREATMENT AND DISPOSAL

32. Describe the characteristics, quantities, treatment and disposal methods for:

Camp Sewage (blackwater)

Sewage will be burned + Treated with lime + Buried.
Quantity depending on # of people in Camp.

Camp Greywater

Grey water will drain into a pit privy 2 metres from the Dry.

Solid Waste

Will be burned on site, non-burnables taken to Arviat for disposal.

Bulky Items/Scrap Metal

Will be flown back to Arviat for disposal.

Waste Oil/Hazardous Waste

* Any waste oil will be flown back to Arviat.

Empty Barrels/Fuel Drums

Will be taken back to Arviat for disposal.

Other:

33. Please describe incineration system if used on site. What types of wastes will be incinerated?

We separate our waste and only dispose of burnable
garbage at camp. The rest is flown back to Arviat for disposal.

34. Where and how will non-combustible waste be disposed of? If in a municipality in Nunavut, has authorization been granted?

We have a number of camps in the Arviat area and
have had no problems disposing of waste in Arviat. The Inuit
is aware of our activities.

35. Describe location (relative to water bodies and camp facilities), dimensions and volume, and freeboard for all sumps (if applicable).

N/A Minimal waste will be generated.

36. Will leachate monitoring be done? What parameters will be sampled and analyzed, and at what frequency?

N/A

Minimal waste

OPERATION AND MAINTENANCE

37. Have the water supply and waste treatment and disposal methods been used and proven in cold climate? What known O&M problems may occur? What contingency plans are in place?

Minimal consumption of water + minimal waste generated.

ABANDONMENT AND RESTORATION

38. Provide a detailed description of progressive and final abandonment and restoration activities at the site.

We have no plans at this point of removing the camp.
We will be applying for a 10 year extension to
the current lease.

BASELINE DATA

39. Has or will any baseline information be collected as part of this project? Provide bibliography.

- Physical Environment (Landscape and Terrain, Air, Water, etc.)
- Biological Environment (Vegetation, Wildlife, Birds, Fish and Other Aquatic Organisms, etc.)
- Socio-Economic Environment (Archaeology, Land and Resources Use, Demographics, Social and Culture Patterns, etc.)
- Other: _____

N/A

REGULATORY INFORMATION

40. At a minimum, you should ensure you have a copy of and consult the documents below for compliance with existing regulatory requirements:
