Hi Ryan,

Please provide a response to this email to confirm you have received it and that what is discussed is accurate. A non-response will be taken as a rejection of these commitments therefore requiring an action from myself to direct you to do so.

I continue to look forward to working with you on these issues,

**Christine Wilson**

Ryan, I have summarized what you need to do in [blue](#)

Thank you for your phone call this afternoon, I appreciate you taking the time to contact me.

Please see attached a copy of your water license

As per **Part B** General Conditions of your license

**item 1**

*" The water use fees of \$30, payable to the Receiver General for Canada, shall be sent to the Board annually in advance of any use in accordance with Section 9 of the Regulations"*

**item 2**

*Licensee shall file an Annual Report on the appurtenant undertaking with the Board no later than March 31st of the year following the calendar year being reported which shall contain the following information:*

- i. A summary report of water use and waste disposal activities, including photographic records of the camp showing the water supply and waste disposal facilities;*
- ii. A list of unauthorized discharge and a summary of the follow-up actions taken;*
- iii. A up-to-date copy of the spill contingency Plan;*
- iv. A description of all progressive and or final reclamation work undertaken, including photographic records of the site conditions before, during and after completion of operations;*
- v. Results of the Monitoring Program; and*
- vi. Any other details on water use or waste disposal requested by the Board by November 1st of the year being reported.*

I have attached for your convenience a standardized Annual reporting form which has sections that can be filled out; any section that is not applicable please write a short rationale.

e.g. "No activity was conducted under this license for that year."

Also attached is a guide to understanding the annual reporting process if need be.

You will need to submit 2011, 2012, 2013 annual reports identifying all the criteria listed above in Part B item 2 and submit the water use fees of \$30 a year annual (2011, 2012, 2013). Contact the manager of licensing for clarity or assistants at [licensing@nunavutwaterboard.org](mailto:licensing@nunavutwaterboard.org) or 867-360-6338

As per our conversation this afternoon you have committed to the Inspector to

- relocate the barrels next to the water and secure them at a minimum of 31 meters from any water source (sept 20th to be completed)

- back hauling 20 barrels of old fuel or waste oil from the site before the next inspection

- Making a detailed inventory of drums onsite

- securing the salt bags and preparing them for back haul for this winter (sept 20th to be completed)

- cleaning up all the garbage on site (sept 20th to be completed)

- submitting to the Inspector a photographic record of the work to be done on the 20th of September.

- submitting annual reports and water use fees to the Nunavut Water Board (before December 30th, 2013)

- updating the inspector via telephone on October 1st, 2013 ( I will call you.. as discussed)

Please confirm the commitments above,

>>> "Ryan St. John" <[heniklakeadventures@gmail.com](mailto:heniklakeadventures@gmail.com)> 9/6/2013 2:37 PM >>>

We plan on going into Henik Lake around the 20th of September to do a site clean up and prep the salt for winter removal. We plan on putting the salt on empty drums to minimize digging out the salt in the winter.

Good Afternoon,

I would like to remind you that a date of reply has been set, if the Inspector does not receive a request for an extension or a response from yourself or a representative of Henik Lake Adventures enforcement action will be taken.

Thank you,
