Good morning Brady,

Thank you for the information; I agree with your comments below and I will be submitting an official letter shortly to retract the now defunct April 7, 2014 renewal & amendment application. As well, I will replace 3BC-ALT1015 with 8AC-ALT---- to reflect the new classification.

Cheers,

Andrew Tam, PhD

Assistant 8 Wing Environment Officer, Environmental Management

Department of National Defence / Government of Canada

**Cc:** Licensing Department

**Subject:** 3BC-ALT1015 transition to 8AC-ALT----

Hi Andrew,

The NWB is modifying the licence number for the Alert Station file, currently issued as 3BC-ALT1015, in order to better reflect the undertaking's classification under the Nunavut Water Regulations.

The renewal and amendment application for Alert will thus continue under the Licence Number 8AC-ALT----.

To make the transition as smooth as possible, I am requesting that you officially retract the renewal and amendment application submitted to the NWB on April 7, 2014, after reviewing that none of the associated documents remain relevant, and the NWB will continue with the application submitted to the Board on September 8, 2015.

Regards,
