**Re: Type “A” Water Licence 8AC-ALT---- Renewal and Amendment Application,  
Department of National Defence, Canadian Forces Station Alert Project, NU;  
Update on Next Steps and Timing of Written Public Hearing**

---

Dear Colonel Rancourt and Mr. Tam,

This correspondence provides updated guidance regarding the next steps and timing associated with the upcoming stages of the Nunavut Water Board’s (NWB or Board) consideration of the Type “A” Water Licence No. 8AC-ALT---- renewal and amendment application (Application), submitted by the Department of National Defence Canada (DND or Applicant) for the Canadian Forces Station Alert Project (Project). This correspondence is an update to the NWB’s previous guidance on next steps issued by the Board on July 4, 2019,<sup>1</sup> that provided parties with updated information regarding timelines and procedural steps associated with the written Public Hearing for the Application.

To date the Board has received final written comments from Crown-Indigenous Relations and Northern Affairs (CIRNA) and from Environment and Climate Change Canada (ECCC); with final written submissions from the Applicant due on August 23, 2019, final summary documents by all parties due on September 3, 2019, and the Public Hearing record expected to close within approximately 2 days of that date.

---

<sup>1</sup> Type “A” Water Licence 8AC-ALT----; Renewal and Amendment Application, Department of National Defence, Canadian Forces Station Alert Project, NU; Re: Update on Next Steps and Timing of Public Hearing.

Received documents have been posted on the Board's Public Registry and are available through the NWB's FTP site using the following link:

<ftp://ftp.nwb-oen.ca/registry/8%20MISCELLANEOUS/8A/8AC%20-%20Camp/8AC-ALT----%20New%20DND/>

On July 23, 2019, the NWB received correspondence from ECCC requesting an extension for their final summary documentation to **September 27, 2019**, *"to allow for a comprehensive review of the proponents responses and translation."*

As the Applicant does not object to this extension request, and ECCC has indicated the additional time is required to provide a comprehensive review and ensure translations are completed, the Board finds this request to be reasonable. Reflecting the extension to ECCC's submission date, and in consultation with the Applicant, the NWB has adjusted the schedule for the written Public Hearing and closure of the Public Hearing Record for the Application from the original date of September 3, 2019. The closure of the Public Hearing Record will now be extended until after all parties have provided follow up submissions in response to Intervener comments, and the Interveners and Applicant have filed their final reply submissions and/or final arguments by **September 27, 2019**.

Accordingly, the Board has revised the timelines set out in the Board's July 4, 2019 correspondence and expects parties to comply with the following updated timelines:

- All further and final responses of the Applicant to the information filed to date must be filed with the Board on or before **Friday, August 23, 2019**;
- All parties must file any final summary documents for the Board's consideration and/or closing arguments with the Board on or before **Friday, September 27, 2019**; and
- If the Interveners and/or the Applicant file additional written submissions, final responses and final summary materials as outlined above, they are also requested to provide **an Executive Summary of their written submissions in English, French and Inuktitut and fully translated copies of their final summary documents in English, French and Inuktitut** when they file the full submissions or as soon as possible afterward.

All further submissions will be posted on the NWB's ftp-site (<ftp://ftp.nwb-oen.ca/>) and in the public registry upon receipt.

As always, the Board reserves the right to revisit the revised timing set out above:

- if parties are unable to meet the revised deadlines;

- if the Board receives subsequent, reasonable requests from the parties for adjournments in response to additional information received; or
- if the Board subsequently determines a revision to the timelines is necessary.

Following the Board's receipt of all final submissions from the Applicant and Interveners, the Board will provide correspondence regarding the closure of the Public Hearing Record for the Application. Once the Board has closed the Public Hearing Record (currently anticipated to be within 1-2 days of the Boards' receipt of the parties' final submissions on September 27, 2019), the Board will remit the Application to the Panel for decision-making.

Within 30-45 days of the Public Hearing Record closing the decision-making Panel will issue Reasons for Decision and a Record of Proceedings and, if the Panel recommends the Application be granted, a water licence will also be attached (the NWB Decision). The NWB Decision will be provided to the Minister of Crown-Indigenous Relations and Northern Affairs for the Minister's review and approval, and the NWB Decision will also be made available on the Board's public registry.

If you have any questions regarding procedural matters related to the file, please contact Richard Dwyer, Licensing Manager, at [licensing@nwb-oen.ca](mailto:licensing@nwb-oen.ca) or by phone at (867) 360-6338, ext. 27. For any Technical inquiries, please contact Derek Donald, Technical Advisor at [derek.donald@nwb-oen.ca](mailto:derek.donald@nwb-oen.ca) or by phone at 867-360-6338, ext. 32.

Sincerely,

Richard Dwyer  
Manager of Licensing  
Nunavut Water Board
