Hi Assol,

Yes, please remove the application submitted to NWB on May 12, 2021. It is now considered null and void.

For our meeting on Monday; in addition to providing a brief overview of the Renewal Application and obtaining confirmation that all pieces have been provided as expected, we would like to discuss:

- The likelihood of obtaining a decision/approval on:
 - The extension (or temporary extension) of the current License to allow for continued site operations and ramifications if the Licence is not extended before the current August 10th expiry date.
 - Approval for Expansion of West Remus Creek Quarry and Culverts
- Timeline for the above approvals/decision
- Understanding next steps and if there is anything ECCC can do to assist in expediting the review and decision process.
- Engineered drawings may not be available in all cases due to nature of project, location, and schedule (eg. culvert)
- Clarification on when a Water License amendment is triggered.

In light of this expanded agenda, I will extend the meeting to one hour in duration. Please let me know if that works for you.

Thank you,

Tyler Huguet
