Dear Ms. Pugh, Ms. Ohokannoak, Mr. Kharatyan, Mr. Ste-Marie:

RE: NPC File # 148232 Renewal of Eureka Weather Station Land Use Permit

The Nunavut Planning Commission (NPC) has completed its review of the above noted project proposal. The activities associated with this proposal were previously reviewed by NPC, and a conformity determination was issued on April 19, 2012, which still applies. In addition, the activities were previously screened by the Nunavut Impact Review Board (NIRB FILE NO.: 12XN020). This request for an extension to a land use permit (N2012N0012) does not require further review by the NPC or further screening by the NIRB. It may proceed to land use permitting under Indigenous and Northern Affairs Canada (INAC).

By way of this letter, the NPC is forwarding the proposal to the regulatory authorities identified by the proponent. Project materials are available at the following address:

<http://npc.strata360.com/portal/project-dashboard.php?appid=148232&sessionid=>

This decision applies only to the above noted proposal as submitted. If there is a significant modification to the proposal, the proponent is required to re-submit the modified proposal to the NPC. For reference, a significant modification may include:
