Hi Carl,

Acknowledged. Please proceed as necessary.

I expect to be in Eureka working out of the PCSP camp between July 3rd to the 7th .. depending on weather.

If the Decant is occurring during this period, I may come down to document and talk to the station manager but I do not plan to sample nor inspect the Facility, as I will not be able to get the samples out on time and have other commitments that I need to meet. I would be willing to look at the Tank farm to document the spill and process the file as required assuming the clean up is complete at that time.

Cheers

Andrew

Hi Andrew,

Just a heads up, as required by our NWB licence agreement, we wanted to inform you that Eureka is tentatively planning the sewage decantation to coincide with the July 6-7 produce flight. You said that you would be in Eureka with PCSP in early July and perhaps you can be there at the time of the decant for sampling as well.

We will receive the official decant dates from the SPM in Eureka shortly and will send those along as soon as we receive it.

Cheers,

Carl

Carl,

Just to remind you , I will be sending you the official message stating our intent to start pump our sewage for our July 6-7 Produce flight.

You will be here, maybe you can do it, LOL.
