To: LeeAnn.Pugh@aandc-aadnc.gc.ca, Phyllis Beaulieu <phyllis.beaulieu@nwb-oen.ca>

Good day,

Please see message below sent on behalf of Alan Gaudet, Station Program Manager in Eureka.

Jean-Philippe Cloutier-Dussault

Technicien aux installations, Direction générale des services ministériels

Environnement Canada / Gouvernement du Canada

jean-philippe.cloutier-dussault@ec.gc.ca / Tel. : 514-496-3948

As per Part D section 8 of the NWB Licence No 3BC-EUR1116, you need to give the NWB 10 days advance notice that we will be decanting our sewage lagoon.

It takes about 48 hours to empty the lagoon and I will be taking samples at 1/3 empty & 2/3 empty... so after 16 hours and 32 hours.

Due to the scheduling of our produce flight this year, we will start pumping out the lagoon at midnight June 23rd, 2014.

The first set of samples will be taken at 4 p.m. June 24th and the second set of samples will be taken at 8 a.m. June 25th.

After the second set of samples are taken, the samples have to make it to the lab within 24 hours so the first set of samples can get to the lab in Winnipeg within 24 hrs.

Please advise the appropriate parties of our schedule.

Thanks,

Al

Alan Gaudet
