Hello Robert

That you for sending this to us. The GN has a vested interest in this matter and will be reviewing the remedial action plan and risk assessment under the Nunavut EPA.

Unfortunately Aug 7 is far too tight of a deadline to be able to properly review the documentation, analyze the risk, and provide a comments back to you. We will require additional time, the specific extent of which we will have to get back to you with once we have sorted out file capacity and technical expert availability.

Thank you

Brad

Bradley Pirie BSc.
