**Re: 3BC-EUR0611 – Eureka Weather Station Spill Plan – Environment
Canada**

Indian and Northern Affairs Canada (INAC) reviewed the Revised Spill Contingency Plan for the Eureka Weather Station, submitted to the Nunavut Water Board (NWB) on March 5, 2008. In conducting our review, INAC referred to the documents on the NWB's FTP-site under **3BC-EUR**.

INAC recommends that the Nunavut Water Board take into consideration the following comments when reviewing this licence application:

Spill Contingency Plan

- The Spill Contingency Plan should be updated to include contact information for Peter Kusugak, Manager of Field Operations, INAC Nunavut Regional Office (NRO); Andrew Keim, Water Resource Officer; and Kevin Robertson, Resource Management Officer.

Peter Kusugak, Manager
Tel: (867) 975-4295
Fax: (867) 979-6445
Email: KusugakP@inac-ainc.gc.ca

Andrew Keim, Water Resource Officer
Tel: (867) 975-4289
Fax: (867) 975-4560
Email: KeimA@inac-ainc.gc.ca

Kevin Robertson, Resource Management Officer
Tel: (867) 975-4296
Fax: (867) 975-4560
Email: RobertsonKL@inac-ainc.gc.ca

- The proponent must provide in the Spill Contingency Plan an onsite contact number (i.e. SAT number) in the event of a spill.

- The plan should include a contact number for the Canadian Coast Guard in the event of a spill on water during fuel transfer.
- On Page 9 of the spill plan the contact number for Department of Indian Affairs and Northern Development is correct, but the location should be Iqaluit, Nunavut rather than Yellowknife.

Should you have any questions or comments, please do not hesitate to contact me at (867) 975-4568 or by email at RumboltI@inac-ainc.gc.ca.

Sincerely,
