Good morning Jean-Philippe,

The Nunavut Water Board notes that in section 1. Introduction of the QA/QC Plan the licence requirement mentions Part I) item 9. Can you please update this with Part I) item 13?

The Nunavut Water board is aware that a number of web browsers are no longer supporting File Transfer Protocol (ftp). If you are having difficulty accessing our FTP site you may need to download an FTP application. We have been recommending the FileZilla Client below to access the files, which is a free and open source application. A link can be found below:
