Hello Justin,

The water was pumped out of the berm and the berm was breached on 26Sep2015.

Regards,

Will Wyman, EP(CEA)

 Subject: Re: BAF-3 - Beach POL Water Results

Hello William,

Thank you for the email. Considering that no activities have occurred in the berm since the last samples were taken, please proceed with the discharge of the water from this berm.

Furthermore, please proceed with the breach of this facility so that this facility no longer acts as a water storage area and will then no longer be considered a liability to water.

Kind regards,

Justin

Hello Justin,

Attached are the lab results from the water taken from the BAF-3 Beach berm on 28Aug2014. As all results are within the limits of the site's NWB water licence (part D, item 10), the water will be discharged at: 63°19'11.2"N, 64°08'23.6"W.

As discussed during the 07Sep2015 Inspection of BAF-3, once the berm has been emptied of water the wall of the berm will be breached.

Please let me know if you have any objections to these actions.

Regards,

Will Wyman, EP(CEA)

Subject: Memo Ammendment - BAF-3 - Beach POL Water Results

Hello Maj. Desveaux,

Please find attached memo ESG-NWSO-0005 which is an amendment to ESG-NWSO-0004. There is no changes to the wording or summary of ESG-NWSO-0004 but the memo now includes the signed lab reports which were requested through Barry Ewing by the O/M contractor for their records.

As before, the results indicate, based on our understanding of the provided Water Use License, that all concentrations are below the listed parameters. A detailed summary of the results is available in Table 1 of the memo.

Sincerely,
Darren
