**Subject: Licence No. 3BC-CAM0919 - Submission of Annual Reports for the CAM-M Long Range Radar (LRR) Station and Logistics Support Site (LSS)**

---

Dear Major Creighton:

The Nunavut Water Board (NWB or Board) has completed the review of the 2012, 2013, 2014, 2015 and 2016 Annual Reports (Reports) submitted by the Department of National Defence, Government of Canada. The Reports were submitted to fulfill relevant requirements under Licence No. 3BC-CAM0919 issued to allow for the use water and disposal of waste in support of the CAM-M Long Range Radar Station and Logistics Support Site; the Project site is located north of the west arm of Cambridge Bay Inlet within the Kitikmeot Region of Nunavut. The review determined that the Reports are generally complete and consistent with the reporting requirements under Part B, Item 1 of the Licence.

Copies of the Reports which were distributed to the public for information purposes are available at the NWB Public Registry using the following link:
