Good Morning Sergey,

The 2021 amendment application is brief in this section, but the intention was to request 3,000 m³/year of which approximately 50m³/year would be used for industrial usage.

A similar amendment (8BC-BAF1929) was filed at the same time as the 8BC-DYE1929 (DYE-M) and 8BC-SHE1929 (CAM-3) with the same wording in the application. For consistency, can similar wording be used in the DYE-M and CAM-3 amendments?

Regards,

Will
