

Appendix E

Progressive and Final Reclamation Work Undertaken

Year: 2011

Reference: Part B, Item 1e.

Progressive Reclamation Work Undertaken in 2011:

There were no progressive and reclamation works undertaken in 2011 at CFS Eureka, Nunavut.

Future works proposed for 2012:

There is one work proposed for the progressive and reclamation works to be undertaken in 2012 at CFS Eureka, Nunavut.

1. CFS Eureka North Airstrip Apron

DND and the National Research Council of Canada will be delineating the CFS Eureka North Airstrip Apron area in summer 2012. This area is a Federal Registered Contaminated Site (S-10527) under the Federal Contaminated Sites Action Plan (FCSAP). The work will include investigation of the area behind the main refuelling tanks where several fuel bladders existed. This location was identified by the Inspector during the July 2011 Inspection Report, and as such, DND will take action to seek bioremediation methods to reclaim this area.
