

Appendix B

Monitoring Program Station No. ERK-2

Year: 2014

Name: Landfarm Facility

Description: Sampling of Effluent prior to release.

Results:

Department of National Defence had no intentions to discharge any freshet from ERK-2 (Landfarm) in 2014.

June

The DND Sampling Team visited CFS Eureka on June 21, 2014. ERK-2 and collected water samples for analysis; the analytical results are summarized below and attached in Appendix F.

Parameter	Maximum Concentration of Any Grab Sample	Results from ERK2
Benzene	370 ug/L	<0.5 (below detection limit)
Toluene	2 ug/L	<0.5 (below detection limit)
Ethylbenzene	90 ug/L	<0.5 (below detection limit)
Lead	1 ug/L	0.27 ug/L
Oil and Grease	15 mg/L & no visible sheen	<1.0 mg/L & no visible sheen
Phenols	20 ug/L	1.0 ug/L (below detection limit)

Note: The water contained in ERK-2 is re-applied to re-hydrate the soils undergoing bioremediation.

July

CFS Eureka was closed for the season.

August

CFS Eureka was closed for the season.

Note:

The Department of National Defence has no intentions to discharge any water contained in the Landfarm Containment in 2014. The water is reapplied to the contaminated soils contained within the Landfarm during the summer season, as part of the biological remediation treatment process. DND had no intentions to discharge any water in ERK-2 in 2014.
