

## **Appendix G**

### **Compliance Plan - Follow Up on 2015 Inspection Report**

**Year:** 2015

**Reference:** Inspection report remains to be issued by INAC.

#### **A. Inspection**

The Indigenous and Northern Affairs Canada (INAC) Inspectors conducted a water licence inspection of CFS Eureka around July 2nd, 2015. At the time of the inspection, CFS Eureka was closed for the season with no DND/Canadian Forces presence. DND provided a detailed compliance briefing and a map of the Surveillance Network Program (SNP) sites to the Inspectors during their stay at CFS Alert, prior to departure for CFS Eureka.

#### **B. Continuation of Environmental Compliance Efforts**

As DND did not receive the inspection report for CFS Eureka at the time of this Annual Report submission, this Compliance Plan will promote the continuing efforts to maintain compliance at CFS Eureka.

The following general environmental compliance actions, but not limited to, will be carried forward by DND in 2016: Environmental Stewardship, Hazardous Waste Disposal, Solid Waste Disposal, Surveillance Network Program (SNP), Interdepartmental cooperation with the Environment and Climate Change Canada Eureka Weather Station, etc.

**Note:** For 2015, CFS Eureka was operational for the month of June only. A similar operational schedule is anticipated for 2016.
