

## **Appendix I**

### **Abandonment and Restoration Plan for CFS Eureka Reference: 3BC-ERK1015, Part I.**

#### **Notes:**

The Nunavut Water Board was contacted by the Department of National Defence on March 21<sup>st</sup>, 2011, to request a submission deadline extension regarding the Abandonment and Restoration (AR) Plan for CFS Eureka. The deadline extension has been granted to April 22<sup>nd</sup>, 2011.

Subject: RE: 3BC-ERK1015 II - AR Plan for Battery Dump

Good afternoon Phyllis,

I have been in communication with 8 Wing Trenton, the Wing responsible for environmental activities at CFS Alert and Eureka, regarding the AR Plan for Eureka. The situation at the Station's Barrel and Battery dumps has been investigated, and we are currently working on the AR Plan. We respectfully request an extension to April 22, 2011 as information regarding these facilities exists, but has proven difficult to locate. Further, there are no personnel on-site at this time.

I await your decision on this request.

Regards,

Douglas Craig, M.Sc.

Good morning Douglas - under the terms and conditions of your water licence, Part I, Item 1 there is a requirement to submit an AR Plan for the battery dump, barrel dump, and other on-site facilities no longer in use and areas where debris has been identified as requiring restoration. The date for this submission was December 18, 2010. Please advise when we may expect this submission.
