Good afternoon all,

As per our water licence, we would like to inform all parties of our intention to decant the Waste Water Lagoon beginning on July 5<sup>th</sup> 2014 as described below by the Station Program Manager for Eureka.

Please acknowledge receipt of this notification as we have been having difficulties transmitting email correspondences lately.

Regards,

Carl

**Subject:** Notice of Eureka Waste Water Lagoon Decanting  
**Importance:** High

Carl,

As per Part D section 8 of the NWB Licence No 3BC-EUR1116, you need to give the NWB 10 days advance notice that we will be decanting our sewage lagoon.

It takes about 48 hours to empty the lagoon and I will be taking samples at 1/3 empty & 2/3 empty... so after 16 hours and 32 hours.

Due to the scheduling of our produce flight this year, we will start pumping out the lagoon at midnight July 5<sup>th</sup>, 2014.

The first set of samples will be taken at 4 p.m. July 6th and the second set of samples will be taken at 8 a.m. July 7th.

After the second set of samples are taken, the samples have to make it to the lab within 8 hours so the first set of samples can get to the lab in Yellowknife within 24 hrs.

Please advise the appropriate parties of our schedule.

Thanks,

Al Gaudet
