Subject: RE: Application for Amendments to Water License for the North  
Warning System Sites in Nunavut

Hi Jim:

Refs. 1. Letter/E-mail Sam Cheng, Nasittuq Corp./Jim Wall, Nunavut Water  
Board dated 31 August 04  
2. Water License NBW6DYE0409 - Type "B"  
3. Water License NBW6FOD0409 - Type "B"  
4. Water License NBW6SHE0409 - Type "B"  
5. Water License NBW6BAF0409 - Type "B"

As per our telephone discussion on subject this morning, Nasittuq has  
reconsidered and decided to withdraw the  
application for amendment to the Quantity of Water Usage at the captioned  
NWS sites as stipulated  
in the original license terms and conditions issued by the Nunavut Water  
Board. Nasittuq Corp. however will  
still request NWB to review and approve the amendment to the sewage disposal  
condition at the captioned NWS sites.

Please contact me should you need further information or clarification  
regarding the subject.

Best regards,

Sam Cheng  
Nasittuq Corp.
