Greetings Phyllis,

As part of the successful application to the Arctic Research Infrastructure Fund (Project: Arctic Migratory Bird Research Network), we hope to construct a small cabin about 15 km north-west of the existing camp at Karrak Lake, Nunavut.

The proposed location is 67° 21'N and 100° 21'W. The cabin will be used for up to 120 person-days per year, and water use and disposal will follow that at the existing camp.

If I understand correctly, we will require an amendment to our current license, which is valid until 31 August 2012. Can you please provide details as to how to go about this?

Many thanks,  
Dana Kellett and Ray Alisauskas
