A complete description of the project proposal reviewed by the NPC can be accessed online using the link below.

The Nunavut Planning Commission (NPC) previously reviewed works and activities associated with the current proposal (decision issued June 14, 2019) and forwarded the proposal to the Nunavut Impact Review Board for screening (NIRB FILE NO.: 19XN034). On September 10, 2019, the NPC received a notice of inclusion to scope from the NIRB identifying “additional works or activities as being sufficiently related to the project to form part of it” and on September 11, 2019 the NPC advised the proponent to submit a modified proposal describing the additional activities.

The Nunavut Planning Commission (NPC) has determined that the above-noted project proposal is outside the area of an applicable regional land use plan and is a significant modification to the previously reviewed project. The above-noted project proposal requires screening by the NIRB under section 12.4.3 of the Nunavut Agreement as amended because it is for a component or activity that was not part of the original proposal and its inclusion is a significant modification of the project.

By way of this letter, the NPC is forwarding the project proposal with this determination to the NIRB for screening. Project materials are available at the following address:

This decision applies only to the above noted project proposal as submitted. Proponents may not carry out projects and regulatory authorities may not issue licenses, permits and other authorizations in respect of projects if a review by the NPC is required.
