**Re: Fisheries and Oceans Canada – Small Craft Harbours’ “Clyde River Small Craft Harbour Development” – 2024-25 NWB Report**

Dear Richard Dwyer:

On January 20, 2022 Nunavut Water Board (NWB) completed the review of the Clyde River Small Craft Harbour Development project proposal and issued a NWB type B licence (licence) to Fisheries and Oceans Canada- Small Craft Harbours (DFO-SCH).

As identified in *Part B: General Conditions* section of the licence, an annual report of construction activities and associated monitoring is due March 31, 2025.

In 2024, the contractor made some significant progress on the project, maintaining the project schedule. This work included; quarrying operations (including blasting, sorting and crushing), hauling rock, and upland upgrades. Near and in-water work included construction of the northeast breakwater and Sealift breakwater, completion of the steel sheet pile fixed wharf, dredging, and installation of floating wharf anchor blocks. The attached annual report will summarize the activities conducted during construction, and confirm the compliance with the monitoring and reporting requirements.
