August 10, 2011

Mr. Dave Hohnstein  
Director Technical Services  
Nunavut Water Board  
dts@nunavutwaterboard.org

Dear Mr. Hohnstein;

**Re: Arviat Surface Diamond Driller's Program**

This letter is to authorize the use of water and waste disposal facilities for the Arviat Diamond Driller's Program. As per Motion #155, passed at the August 9<sup>th</sup> meeting of the Hamlet Council, we formally authorize the program to use the resources required, specifically:

- To use water as required, from the municipal water reservoir to the maximum amount of 625 cubic metres per course = 1,250 cubic metres per year.
- To dispose of waste generated in the municipal solid waste dump, sewage lagoon, and metal dump. Household waste, rock flour (sand), some sewage, and used oil/lubricants will be disposed of.

This program is a positive initiative for our community and the Hamlet Council is fully in support. Please let us know if there is any other information you require.

Sincerely,

Bob Leonard

Mayor
