**RE: Water License Inspection,**

---

I am currently engaged in the planning and development of the 2013 field inspection schedule.

While it is too early to predict the exact date, I will be attending the site to conduct inspections on the water use and disposal, waste management and other related water license issues. I hope to be in the Rankin Inlet Area and conducting inspections starting on the 1st of July with your inspections scheduled for the 12<sup>th</sup> of July, 2013:

When I arrive to the site, I am requesting assistance in conducting the inspection. If possible I would like to know the following information;

- Names and positions of staff associated with this project
- Confirmation of exact coordinates (degrees/min/sec, NAD 83) of activities, fuel caches and drilling staging locations.
- Any other information you feel is pertinent for a site visit (i.e.: site hazards or restrictions, site safety protocols, etc.).
- Land use permit (LUP) numbers which are associated with this particular site
- Are there any outstanding documents or documents recently submitted to the Nunavut Water Board (i.e.: within the last 60 days)

This information will allow us the opportunity to review the terms and conditions of your current license with yourself or your staff.

I remind you that reporting and water use fees to be submitted annually under this License from the date of issuance. To date no reports or fees have been submitted.

I am looking forward to our visit and hope we have the opportunity to work cooperatively together this coming year.

Sincerely,

*Sent by E-mail*
