Re: Access Road Design; Type “B” Water Licence No: 8BW-ANU2333, Anuriqjuak Nukkiksautiit Project; Nunavut Nukkiksautiit Corp.

Dear Susan Shaw and Pete Whelan:

On June 23, 2023, the Nunavut Water Board (NWB or Board) received from Nunavut Nukkiksautiit Corp. (NNC or Licensee) a set of issued-for-construction engineering drawings for the construction of an access road dated June 20, 2023 (IFCs) and submitted as the requirement of Part E, Item 3 of Water Licence No: 8BW-ANU2333 (Licence) issued to NNC for the Anuriqjuak Nukkiksautiit Project (Project).

On August 16, 2023, the IFCs were distributed for public review with the deadline for response set for August 28, 2023. On August 24, 2023, Crown-Indigenous Relations and Northern Affairs (CIRNA) provided its comments requesting commitments from the Licensee to inform the Inspector ten (10) days prior to constructing water crossings and in case of Effluent quality limits being exceeded. On September 1, 2023, the Licensee provided its commitments.

Copies of all documents received in regards to the IFCs can be accessed through the NWB’s Public Registry and FTP site using the following link:

NWB’s Review

The Board acknowledges that the IFCs address the requirements of Part E, Item 3 of the Licence. The Licensee is advised that the Board's review of the IFCs is a verification that the proposed activity is consistent with the existing terms and conditions of the Licence and more specifically with Part E, Item 3, and may proceed in accordance with the IFCs provided. It should be noted that the Board's acceptance is NOT intended or offered as any representation regarding the suitability of the plans nor third-party verification of the design, construction, planning or engineering discussed in the document.

Further, in keeping with Part E, Item 4 of the Licence's terms and conditions, the submission of post-construction information shall remain applicable to this authorization.

If you have any questions, please contact the undersigned at assol.kubeisinova@nwb-oen.ca or (867) 360 6338 (ext. 31).
