**Re: Status of Bathurst Inlet Port and Road Project Proposal**

---

Dear Mr. Keen

The Nunavut Impact Review Board (NIRB or Board) is conducting an internal audit of its files and is seeking to determine the status of the Bathurst Inlet Port and Road (BIPAR) project proposal.

As you are aware, NIRB issued its Final Impact Statement Guidelines for the proposed BIPAR project on December 6, 2004 in expectation that you would complete and submit a Draft Environmental Impact Statement (DEIS). During our telephone conversation of February 1, 2007 it was confirmed that NIRB has not received your DEIS and that your file has been inactive for some time. You advised that Nuna Logistics was planning to submit a DEIS sometime in the fall of 2007.

At this time NIRB is requesting that Nuna Logistics, the proponent, and interested parties provide an update, in writing, informing of the status of the project, the status of project authorization applications, and any other concerns that are applicable by **February 9, 2007**. Please forward responses to this request to Ms. Leslie Payette, NIRB's Manager of Administration at [lpayette@nirb.nunavut.ca](mailto:lpayette@nirb.nunavut.ca).

If you have any questions or concerns please contact me at 403-697-7897 or [ktunaley@nirb.nunavut.ca](mailto:ktunaley@nirb.nunavut.ca)

Yours Truly,

Karlette Tunaley  
Technical Advisor
