

NIRB File No.: 03UN114

August 26, 2011

The Honourable John Duncan
Minister of Aboriginal Affairs and Northern Development Canada
10 Wellington St., 21st Floor
Gatineau, QC K1A 0H4

Sent via email: duncan.j@parl.gc.ca and minister@aandc.gc.ca

Re: Request for Direction for the Termination of NIRB's Review of the Bathurst Inlet Port and Road (BIPR) Project

Dear John Duncan:

On behalf of the Nunavut Impact Review Board (the NIRB or Board), I am writing this letter to provide you with an update regarding the status of the NIRB's review of the Bathurst Inlet Port and Road (BIPR) project proposal, NIRB File No. 03UN114. In addition, reflecting the project proponent's indication that it will not be re-engaging the technical review process, this letter also requests your direction regarding the termination of the NIRB's review of this project.

Procedural History

The BIPR project consists of a proposed port and facilities near Bathurst Inlet, a 211 km all-weather road to Contwoyto Lake (which would connect to the existing Tibbit to Contwoyto winter road), and a 20 person camp at Contwoyto Lake. The project proponent is Bathurst Inlet Port and Road Joint Venture Ltd., a partnership between Kitikmeot Corporation (50%) and Nuna Logistics Ltd. (50%). The project proposal was initially referred to the NIRB for screening in March of 2002. All relevant documentation for this project is available from the NIRB's online registry at: <http://ftp.nirb.ca/02-REVIEWS/ACTIVE%20REVIEWS/03UN114-BIPR/>. A full listing of all documentation associated with the NIRB's review of the BIPR project has also been enclosed for your reference.

The NIRB screened the original project proposal in accordance with the requirements of Article 12 of the Nunavut Land Claims Agreement (NLCA). In July 2002, the Board's issued its screening decision report to the Minister of Indian and Northern Affairs (the Minister), recommending that the project proposal undergo a review under Part 5 or 6 of Article 12 of the NLCA. In November, 2002, the project proponent notified the NIRB and the Minister that due to the postponement in developing a key base metal mining project proposed for the region (the Izok Project), the scope of the BIPR project was going to be reduced in 2002 to exclude the construction of a road from the Lupin mine site to the Izok property.

Reflecting these changes, in May 2003, the Proponent submitted a revised project description to the NIRB for screening. In September 2003, the NIRB released its screening decision report with respect to the revised project description, once again recommending that the project undergo a review under Part 5 or 6 of Article 12 of the NLCA. In May, 2004 the Minister issued his decision with respect to the modified proposal, concurring with the NIRB and referring the proposal to the NIRB for review under Part 5 of Article 12 of the NLCA. The Minister specifically identified transboundary effects and cumulative impacts as issues to be considered by the NIRB in this review.

As directed by the Minister and in accordance with the NIRB's accepted practice, public scoping sessions were conducted in several communities from June to October 2004, after which the Draft EIS Guidelines were released for public comment. The NIRB issued Final EIS Guidelines to the proponent in December, 2004 pursuant to Section 12.5.2 of the NLCA. In January, 2008 the proponent filed its Draft EIS documentation (DEIS) with the NIRB, later that same month, after assessing the conformity of the DEIS to the Final EIS Guidelines the NIRB accepted the proponent's DEIS submission and solicited information requests on the DEIS from the participants.

In August 2008, the project proponent requested that the technical review of the DEIS be suspended until the project's schedule and the schedule of its potential users could be reassessed in 2009. In September, 2008 the Board advised the proponent that it considered it was in the best interests of all parties and the impact assessment process to proceed with a technical review of the DEIS but to delay the scheduling of a technical meeting/pre-hearing conference until the project proponent was prepared to re-engage the process and submit a response to any outstanding information requests. In November, 2008 the NIRB formally granted the request from the proponent to suspend further technical review of the BIPR project proposal until the project's schedule and the schedule of its potential users could be reassessed by the proponent in 2009.

In June 2009, the project proponent advised that due to changes in the ownership structure affecting some of the projects that had planned to use the Bathurst Inlet Port and Road, the project proponent was requesting a further suspension of the review process until 2010. In December 2009, the Minister of INAC advised the Board to suspend the review until early 2010 when the project proponent could provide an update. In 2010 the proponent continued to collect baseline data during the summer field season and indicated to the Board that it wished to further the suspension of the technical review until 2011.

2011 Status Update

On July 20, 2011, the proponent provided the enclosed status update, indicating that the proponents "do not have a commitment from remaining potential users at this time and, therefore, it is not our intent to re-engage the technical review process".

Conclusions/Recommendations

On the basis of this most recent status update received from the project proponent indicating that the commitments necessary to develop the project are no longer in place and that the project proponent does not intend to re-engage the NIRB's technical review process, the NIRB is hereby recommending that the Minister consider terminating the review of the BIPR Project, NIRB File No. 03UN114. In making this recommendation, the Board notes that for the interveners and other interested parties this review has effectively been suspended since November 2008.

In closing, the NIRB would like to thank the Minister in advance for your direction with respect to this matter. If you have any questions or require additional clarification regarding this file, please contact Ryan Barry, NIRB's Executive Director, at (867) 983-4608 or rbarry@nirb.ca.

Yours truly,

Lucassie Arragutainaq
Chairperson

cc: Grant Pearson, Nuna Logisitics Ltd.
