**Subject:** Bathurst Inlet Port and Road Project

Dear Ms. Briscoe :

It has just recently come to our attention that the community of Holman may have some comments on the project description for the Bathurst Inlet Port and Road project but they have not been given the opportunity to provide comments.

The Inuvialuit Game Council would also like to provide comments and will try to meet tomorrow's deadline.

There are potential impacts for the Inuvialuit Settlement Region(ISR) if this project goes ahead. These include potential impacts to the Dolphin Union caribou herd, which the community of Holman relies on, and also impacts resulting from the increased shipping traffic through the ISR portion of the Beaufort Sea.

We have been unsuccessful in opening the project application from your website. We would like to request copy of this application by email if possible. We would also like to request an extension on the deadline for comments as the community of Holman does not have a copy of the application and would require time to go through the application and provide comments.

Sincerely,  
Nelson Perry
