I have reviewed the transmittals at the time that this file went out for review and Derrick Moggy and Tania Gordanier were the DFO contacts at that time. They are both on the distribution list along with Carson Gillis, Stefan Lopatka, George Hakongak, Jeannie Ehaloak, Gladys Joudrey, Luke Sulik, Tongola Sandy, Luis Manzo, David Alagalak, Josee Galipeau, Elizabeth Sherlock, Robert Eno, Constantine Bodykevich, Scott Stewart, Spencer Dewar, Mike Fournier, Colette Meloche, Fred O'Brien, Julie Ross, Stephen Hartman, Earle Baddaloo, Gladis Lemus, Jim Wall.

Brian Purdy of Community and Government Services submitted the original application. We only received two comments during the review period and that was from Environment Canada and CLEY. If you require further information please don't hesitate to contact me. I will be loading the file back onto our ftp site but it will take some time.

Regards,

---

Our application stated that the project would take 7-10 years, our Land Use Permit was issued in 2003 and construction is apparently still underway, just slow due to funding it seems.

As I noticed that back in the day there was not a lot of information given to INAC over this project, can you tell me if consultation to other government departments occurred (specifically DFO as there is a requirement for installation of culverts in possible fish bearing waters.).

We are probably going to extend the permit and ask for a re-submission in the future, depending of course what NIRB says.

Thanks

John G Craig

Good afternoon John. Is the Hamlet of Chesterfield still constructing the road? Indications are from the original application that it would not take more than a year. If construction is still going on then they are required to renew and there is no time limit for submission.

thanks, as I have let Andrew know, I will inform our client of the need for the renewal, just for my own information, is there a time limit on when a renewal can be requested prior to a new application required. With the Land Use Regulations, the request has to come in prior to the expiry.

No idea..  
There is nothing on the web site to indicate it.
