Hi Phyllis,

In compliance with Part G, item 7 of the above mentioned license and amendment find attached stamped drawings of crossings 9, 10 and 11. In addition, you will also find stamped as-built drawings of crossing 5, 3a and 2a. We still need to finalize surveying of crossing 7a and the bridge, but once those completed, we will forward these as-built drawings as well.

Sincerely,

Philippe Simon, P.Eng., Ph.D.
