**RE: Subject: Qikiqtaaluk Corporation – Clyde River Road Construction – Amendment
– Type “B”**

Thank you for the opportunity to provide input into the Nunavut Water Board's (Board) review process for the amendment to the Type B water license for the Qikiqtaaluk Corporation, Clyde River Road Construction. The following specialist advice has been provided pursuant the Canadian Environmental Protection Act, Section 36(3) of the Fisheries Act, the Migratory Birds Convention Act, and the Species at Risk Act.

Qikiqtaaluk Corporation currently has an approved water licence to conduct repair work, culvert installation and construction of a bridge over the Clyde River. Work commenced in June 2009, and it was determined at this time that damages on some parts of the road were too severe. A new route was proposed, including the installation of 3 culverts at creek crossings.

Comments and recommendations submitted for the project on April 16, 2009 and September 23, 2009 in response to the NIRB Part 4 Screening and amendment would continue to apply to this water license application (see attached).

If there are any changes in the proposed project, EC should be notified, as further review may be necessary. If you have any questions regarding the foregoing please contact Carrie Spavor at (867) 975-4631 or via email at carrie.spavor@ec.gc.ca.

Yours truly,
