---

Hi Phyllis  
Can you please add this email correspondence to the public registry for the 8BW-CLY0810 file?  
Thank you  
Karlette

Hi Karlette,

I was out of the office for a while.. I am back now.

Sorry that the Licensee's response to the Inspector's Direction was missed in my review letter. INAC accepts the Licensee's plan to complete the work by October.

Thanks  
Andrea

Hi Andrea

I am working for the Nunavut Water Board on an amendment application to water licence 8BW-CLY0810 to allow for repairs to the road between Clyde River and the former LORAN station at Cape Christian. In August 2009 the Inspector (Andrew Keim) visited the site and issued a Direction to the Licensee, dated August 24, 2009 (attached). Item 4 of this Direction required the following:

1. To by August 31st, 2009 develop and submit to the Inspector and the Nunavut Water Board for approval a plan to mitigate activities on all impacted grounds and waters on the "old and roadway" which have been impacted by the use of vehicles and equipment.

A response to this Direction was submitted by the Licensee dated August 31, 2009 (attached). I am wondering whether the Inspector or INAC has reviewed and approved of the Licensee's Plan as required by the Direction. Your comments on the amendment application dated November 16, 2009 (attached) provide a list of documents reviewed; however, the Licensee's response to the Inspector's Direction is not listed. The Licensee plans to complete the work by October of this year so approval of this Plan is an important part of the amendment. If you would like to discuss please feel free to contact me at 403-697-7897.

Thanks for your assistance!

Karlette Tunaley
