Thank you for your email. Please note that the monitoring data you provided lack the information that is required by the Licence.

The NWB noted in its previous correspondence issued in 2019 (also attached to this email):

The Board Recommends that for all future works that Tower Arctic conduct water quality monitoring in accordance with Licence conditions, compare it to discharge criteria, and provide this information in all future annual reports.

Please provide the missing information on or before May 25, 2021.
