[illegible]

A photograph of a sandy beach. A yellow caution tape is stretched diagonally across the sand from the foreground towards the water. A white PVC pipe is laid out on the sand, forming a rectangular frame in the foreground. The ocean is visible in the background.

A white PVC frame is placed on a dark, gravelly surface. A yellow and black measuring tape is visible in the bottom left corner of the frame.

A wide-angle photograph of a sandy beach. On the left, a small orange utility vehicle is parked. In the center, the beach stretches out with visible tire tracks. On the right, a large, dark-colored boat is beached. The background features a calm body of water and a range of mountains under a heavy, overcast sky. A white rope or cable runs across the foreground sand.

[illegible]

A square white frame is placed on a light-colored, sandy surface. Inside the frame, there is a dense, dark, textured mass, likely a sample of sediment or biological material. The mass is dark brown to black and has a complex, irregular shape. The surrounding sand is light-colored and appears to be composed of fine grains. The frame is made of a thin white material, possibly plastic or metal, and is positioned centrally in the image.
