Re: Project Proposal for Construction of the Proposed North Pole River Access Road

On behalf of the Hamlet of Repulse Bay, please find enclosed a Project Proposal for construction of the proposed North Pole River Access Road for screening by NIRB. The Hamlet wishes to construct a road to access identified granular resource sites located northwest of the community. As the proposed access road will be an all-weather road, additional information supporting this Project Proposal has been enclosed. Additional, as the proposed access road will cross several waterbodies, the Hamlet will also require approval from the Nunavut Water Board (NWB); copies of the submission to the NWB have also been included with this screening application. Supporting the Project Proposal are the following attachments:

- NIRB Project Specific Information Requirements;
- NWB License Amendment Application;
- NWB License Application Summary in English and Inuktitut;
- NWB Supplemental Technical Information for Water Crossings;

One hard copy of these documents is provided in addition to digital copies on the enclosed compact disk.

I trust we have provided the Board with sufficient information to process the licence application. Should you have any questions or comments, please do not hesitate to contact me. Please address any correspondence related to this application to the undersigned.

Yours Truly

NUNAMI JACQUES WHITFORD LIMITED

Nick Lawson
Operations Manager

c. Andrew Johnson, Senior Administrative Officer, Hamlet of Repulse Bay
