thank you for the email. Please forward an application for a new water licence to the attention of licensing@nwb-oen.ca. Also forward your project summary in both english and inuktitut. The SIG for General Water Works will also assist our tech department in their internal review. If Tetra Tech are not the licensee a letter of authorization for you to act is also required. We would also like to receive a copy of the email from NPC exempting the project (without the email chain as seen here) Your file number will be 8BW-COR—, please quote this file number on your initial submissions.

The application form and draft SIG are attached for your use.
